Universal Pictures To be fair, it's an over-the-top poster to match what promises to be an over-the-damn-top movie. Johnson plays Will Ford, a former captain of the hostage rescue team who leaves the FBI to undertake an incredibly specific career in evaluating the safety of skyscrapers. While on duty in China, Ford suddenly discovered the test, safest building in the world engulfed in flames. Worse: His family is trapped inside. Somehow even worse: He's being played for the fire. Do you remember the celebrities? Since the Western film genre was as old as Hollywood made the film itself, many Silent Film Era actors appeared in the West at the time. Film historians identified William S. Hart as the first Western film hero to describe what we know about the typical protagonists of Western films: a man who fights with integrity when necessary, and is honored in his intentions and actions. His 1925 silent film called Tumbleweeds began it all, and paves the way for future Western film heroes to develop and evolve from this character prototype. As the Western film genre flourished, so did the diversity of Western film heroes. The concept of anti-heroism has become, with outlaws becoming protagonists of Western films. They may not have the honor and integrity of typical Western heroes, but these figures have given Western characters a more nuanced backdrop. Now they appear more human, and less of a perfect hero. In the process, they also become relevant to the audience. To date, the West as a category is still being revised and reformed. But the big stars still want to star in them because they see it as a good opportunity to contribute to the Western genre.
